

IMPROVECARENOW

**You are not alone.** ImproveCareNow (ICN) has created a worldwide sharing community where patients, parents, clinicians, and researchers learn and continuously improve to bring about more reliable, proactive IBD care for healthier children and youth.

**We improve care together.** Over the past decade we have grown our community of parents, patients, and clinicians who share resources, ideas, offer support, and improve outcomes. Our mission is to continue this growth. More children are now in remission than when we started, and you have access to the same support that they receive.

**Join the ImproveCareNow Community!** Our community members are involved in many ways. Some benefit from information and materials on our website. Others get involved with research or by organizing events. Below please provide the following information so that we can keep in touch. It's all up to you to decide how ICN can best support you and your family.

**Yes!**

**I would like to become a part of the ICN support community at Cincinnati Children's.**
